

# SUNNYSIDE MASTER GARDENER

Helping Others Grow

Mark your calendars for Southern Indiana's first annual Tomato Festival on Sunday, August 18, 2024, from 11:00 am to 2:00 pm. Hosted by the Sunnyside Master Gardeners (SMG), the festival features games and activities for the entire family.

Learn little known facts about tomatoes, enjoy taste-testing over 10 varieties of tomatoes, and enter your own produce in contests for the prettiest and ugliest tomatoes. SMG-grown vegetables will be available for purchase (cash or check only) and you can cool off at our "make your own sundae" bar. We'll even have an all-tomato cookbook for sale.

The 2024 SMG Tomato Festival will be held at the Purdue Technology Center, 3000 Technology Ave, New Albany, IN 47150. For more information, "like" us on Facebook—Sunnyside Master Gardeners. For more information contact Diane Wille at [dwille@iu.edu](mailto:dwille@iu.edu).
